23. In the future courses, the instructor should continue doing:

- Everything, Karen Gergely is perfect.
- longer projects
- Week long projects that challenge the students
- I really liked all of the projects that we did. I genuinely can not think of a single thing that I disliked and the projects that we did this semester really pushed me to get out of my comfort zone and I am a better artist because of it. You should keep doing the parade. That was fun.
- Keep the assignments/projects done this semester.
- Holding individual discussions with all classmates.

24. In the future, the instructor should start doing:

- Anything she wants
- more smaller projects
- I can't think of anything.
- Nothing I can think of.
- Making more chili.

25. In the future , the instructor should stop doing:

- Nothing, Karen Gergely is perfect
- video responses
- I am actively trying to find something that I disliked, but I cannot think of anything. I really enjoyed this class.
- Nothing I can think of.
- Nothing.

23. In the future courses, the instructor should continue doing:

- Good teacher
- nothing different
- Being Happy.
- using various methods of teaching, drawing seen in different way was very interesting.
- activities in class
- Her passion is amazing, love Karen!
- in the future courses the instructor should continue with the assignments she has given us because they are all different and we learn something new from each of them.
- nothing else, she does everything right
- Drawing projects
- I think the instructor did a good job of bringing positive energy with her personality. She also did a good job in engaging everyone and make everyone involved.
- music projects
- Please continue doing the drawing turned into a percussion piece.

24. In the future, the instructor should start doing:

- Good teacher
- Nothing different
- Assign less homework.
- More freedom of drawing assignments and less practice.
- other type of assignments
- Not have the class at 9 AM....
- in the future, the instructor should assign more drawing and painting assignments. some that are abstract, free style, realistic, etc.
- everything is perfectly fine
- More of group art projects
- Give the pen assignment earlier.

25. In the future , the instructor should stop doing:

- nothing it was a good class
- Nothing different
- less practice assignments
- The pen assignment
- having the art class too early.
- the instructor should not stop doing anything, she is doing great with what she is doing.
- nothing at all.
- To be honest I don't know because I really like the class she makes the class really fun.
- I think long projects are tough as it is hard to sustain the quality of art when the project is so long such as the pen assignment
- Nothing I can think of.

23. In the future courses, the instructor should continue doing:

- rugs
- Everything, I loved the class!
- Actually, teach like it was so bad. When I asked her to teach she said "This is college".
- more rugs!!!!!!!!!!!!!!!!!!!!!!
- I LOVED the rugs. It was a really cool assignment and I really enjoyed it. I plan on making more.
- Creating more interactive and creative assignments
- The rugs and community projects.

24. In the future, the instructor should start doing:

- more small project/chances to create physical art
- Teaching
- More lectures on how art can affect social change
- I feel it would be cool to have more days like the class where we had the spinners come in. I liked learning a new skill and if we had other days that we were learning skills I would have really enjoyed that. (Maybe building things like furniture?)
- Should start to make more crafting assignments and more conversation about social art
- I enjoyed starting the rug as early as we did but it also took up more of my attention than the reading did. So I would suggest not starting the rug right away.

25. In the future , the instructor should stop doing:

- long readings for assignments because while some people put in the work, others do not at all.
- Being so mean when we ask her to teach.
- If there was a way to shorten the reading assignments that would be great. It was just a lot to handle and made it really hard to motivate myself to do them.
- Nothing. Continue being awesome and one of the best instructors I've had at Graceland.
- Nothing I can think of.

23. In the future courses, the instructor should continue doing:

- Create a positive learning environment by being supportive to all
- picking the paintings after the first one
- being a positive light to students
- Demos and letting the due date be flexible
- Keep doing exactly what you're doing!
- What shes doing
- Frame assignments based on acquired skills, and let student interest determine the theme of the work.
- Nothing I can think of.
- Playing music
- Making class super awesome and so much fun to be at. Coming around and individually speaking with every student. Bringing chili and other delicious snacks! Being easy and open to talk to.

24. In the future, the instructor should start doing:

- Nothing - everything is great
- add more painting choices for the major assignments that are picked
- nothing, just continue to be a great
- Different variations of painting. Like different canvas and materials to use
- Nothing
- Include sections on other painting styles > watercolor, oil, etc. She was available to work individually with students, but did not include a general overview (which I feel should be included).
- Nothing I can think of.
- Nothing
- A class where we paint outside when the weather is so nice!

25. In the future , the instructor should stop doing:

- Nothing - everything is great
- spending so much time on the fruit and 3 object before getting to canvas
- nothing, didn't have any issues
- Some demos are long but it works out
- Having late afternoon class
- Nothing
- Talking so fast when teaching/ going over presented materials. Just slightly slower pacing would be appreciated.
- Nothing I can think of.

23. In the future courses, the instructor should continue doing:

- Everything, Karen Gergely is lovely
- Everything! I loved the documentaries we watched in class and enjoyed listening to class discussion.
- Class discussions, encouraging people to speak out
- analyzing artists' works. I loved looking at and watching documentaries on multiple artists and art styles.
- Encourage all students to interact during class discussions
- being her bubbly self. it was always nice to go into class and see her smiling face
- Continue being yourself, it makes class very enjoyable.
- Involving students and being very enthusiastic
- Keep the same energy!
- Showing documentaries.
- Fishbowl discussions
- showing videos
- Keep doing what you're doing! I learned a lot!
- Nothing I can think of.
- Making popcorn for us during documentaries.

24. In the future, the instructor should start doing:

- Anything she wants
- Nothing! Enjoyed it all.
- Assignments in class, group work

23. In the future courses, the instructor should continue doing:

- Everything, Karen Gergely is perfect.
- longer projects
- Week long projects that challenge the students
- I really liked all of the projects that we did. I genuinely can not think of a single thing that I disliked and the projects that we did this semester really pushed me to get out of my comfort zone and I am a better artist because of it. You should keep doing the parade. That was fun.
- Keep the assignments/projects done this semester.
- Holding individual discussions with all classmates.
- Good teacher
- nothing different
- Being Happy.
- using various methods of teaching, drawing seen in different way was very interesting.
- activities in class
- Her passion is amazing, love Karen!
- in the future courses the instructor should continue with the assignments she has given us because they are all different and we learn something new from each of them.
- nothing else, she does everything right
- Drawing projects
- I think the instructor did a good job of bringing positive energy with her personality. She also did a good job in engaging everyone and make everyone involved.
- music projects
- Please continue doing the drawing turned into a percussion piece.
- rugs
- Everything, I loved the class!
- Actually, teach like it was so bad. When I asked her to teach she said "This is college".
- more rugs!!!!!!!!!!!!!!!!!!!!!!
- I LOVED the rugs. It was a really cool assignment and I really enjoyed it. I plan on making more.
- Creating more interactive and creative assignments
- The rugs and community projects.
- Create a positive learning environment by being supportive to all
- picking the paintings after the first one
- being a positive light to students
- Demos and letting the due date be flexible
- Keep doing exactly what you're doing!
- What shes doing
- Frame assignments based on acquired skills, and let student interest determine the theme of the work.
- Nothing I can think of.
- Playing music
- Making class super awesome and so much fun to be at. Coming around and individually speaking with every student. Bringing chili and other delicious snacks! Being easy and open to talk to.
- Everything, Karen Gergely is lovely
- Everything! I loved the documentaries we watched in class and enjoyed listening to class discussion.
- Class discussions, encouraging people to speak out
- analyzing artists' works. I loved looking at and watching documentaries on multiple artists and art styles.
- Encourage all students to interact during class discussions
- being her bubbly self. it was always nice to go into class and see her smiling face
- Continue being yourself, it makes class very enjoyable.
- Involving students and being very enthusiastic
- Keep the same energy!
- Showing documentaries.
- Fishbowl discussions
- showing videos
- Keep doing what you're doing! I learned a lot!
- Nothing I can think of.
- Making popcorn for us during documentaries.

24. In the future, the instructor should start doing:

- Anything she wants
- more smaller projects
- I can't think of anything.
- Nothing I can think of.
- Making more chili.
- Good teacher
- Nothing different
- Assign less homework.
- More freedom of drawing assignments and less practice.
- other type of assignments
- Not have the class at 9 AM....
- in the future, the instructor should assign more drawing and painting assignments. some that are abstract, free style, realistic, etc.
- everything is perfectly fine
- More of group art projects
- Give the pen assignment earlier.
- more small project/chances to create physical art
- Teaching
- More lectures on how art can affect social change
- I feel it would be cool to have more days like the class where we had the spinners come in. I liked learning a new skill and if we had other days that we were learning skills I would have really enjoyed that. (Maybe building things like furniture?)
- Should start to make more crafting assignments and more conversation about social art
- I enjoyed starting the rug as early as we did but it also took up more of my attention than the reading did. So I would suggest not starting the rug right away.
- Nothing - everything is great
- add more painting choices for the major assignments that are picked
- nothing, just continue to be a great
- Different variations of painting. Like different canvas and materials to use
- Nothing
- Include sections on other painting styles > watercolor, oil, etc. She was available to work individually with students, but did not include a general overview (which I feel should be included).
- Nothing I can think of.
- Nothing
- A class where we paint outside when the weather is so nice!
- Anything she wants
- Nothing! Enjoyed it all.
- Assignments in class, group work
- More small projects and chances to create our own art
- Nothing - all is well
- I like how she taught. maybe just less videos and more articles
- Doing some homework assignments in class possibly.
- none
- Nothing I can think of.

25. In the future , the instructor should stop doing:

- Nothing, Karen Gergely is perfect
- video responses
- I am actively trying to find something that I disliked, but I cannot think of anything. I really enjoyed this class.
- Nothing I can think of.
- Nothing.
- nothing it was a good class
- Nothing different
- less practice assignments
- The pen assignment
- having the art class too early.
- the instructor should not stop doing anything, she is doing great with what she is doing.
- nothing at all.
- To be honest I don't know because I really like the class she makes the class really fun.
- I think long projects are tough as it is hard to sustain the quality of art when the project is so long such as the pen assignment
- Nothing I can think of.
- long readings for assignments because while some people put in the work, others do not at all.
- Being so mean when we ask her to teach.
- If there was a way to shorten the reading assignments that would be great. It was just a lot to handle and made it really hard to motivate myself to do them.
- Nothing. Continue being awesome and one of the best instructors I've had at Graceland.
- Nothing I can think of.
- Nothing - everything is great
- spending so much time on the fruit and 3 object before getting to canvas
- nothing, didn't have any issues
- Some demos are long but it works out
- Having late afternoon class
- Nothing
- Talking so fast when teaching/ going over presented materials. Just slightly slower pacing would be appreciated.
- Nothing I can think of.
- Nothing, Karen Gergely is lovely
- Nothing
- Not as many films
- Nothing - all is well
- fishbowls
- So much class discussions.
- Film reflections in addition to in class discussions. I think that the in-class discussions fostered more opportunities to reflect on class material.
- none
- Nothing I can think of.

23. In the future courses, the instructor should continue doing:

- Keep running the class like you because it has been one of the best classes that I have taken this year.
- the assignments she does
- karen is a great teacher, she is very helpful and make everyone feel comfortable, she helps every student and guides every single one in the right path, and give great advises. I just think that she should keep being the way she is because she is great.
- Helping the students
- Being a wonderful person.
- KEEP BEING A GOOD TEACHER
- Projects
- The video responses and projects---they were really fun
- Nothing Different
- Checking in with everyone

24. In the future, the instructor should start doing:

- Have more options for projects.
- let us have a little more creativity
- I don't know to be honest, because the instructor already uses multiple ways of teaching and everything she does is great.
- Try to give more time
- Nothing, she's great.
- Projects with other materials like water paint or just regular paint
- I can't think of anything new to add to the course, I really liked it.
- giving time in beinging of class to work on projects

25. In the future , the instructor should stop doing:

- There is nothing that you should stop doing.
- video responses
- nothing
- Stop letting kids have so much freedom
- Video Responses
- I also can't think of anything here.
- Photo editing

23. In the future courses, the instructor should continue doing:

- a variety of projects with different goals and materials.
- everything she is great
- all that she does
- Her ideas and homework assignments are fun and applicable to the course. She connects everything we do with one another and is fun.
- I feel that she should keep doing things the way she been doing

- The everyday things she does. Making a little bond with each student.
- Making class with jokes and music etc.
- This course was my favorite! They should continue the body in place project. The journal seemed like a big task and I think that I have pushed myself to be more creative. Overall this teacher should continue to walk us through art in a life applicable way.
- Giving examples
- The same

24. In the future, the instructor should start doing:

- include more shorter projects and utilize some more materials.
- she doesnt have to change anything
- I think she is good at what she does
- More in class time for the projects that take longer. Something like 30 minutes everyday to work on our assignments.
- Art games with prizes
- Start critiquing us a bit more.
- everything is fine
- This teacher should start to make more rubrics and allow us to become better students. She should start doing more outside class activities overall. That way previous students who enjoy art but don't do it on a daily basis have the ability to be in that mindset.
- Give a little more empathy
- Nothing

25. In the future , the instructor should stop doing:

- she should keep doing everything she supposed to be doing
- nothing she does a great job
- Overall the instructor was amazing. She helped me with personal issues and was very professional about it. However, some students need to be treated differently with how they learn.
- Nothing she doing an wonderful job
- I don't know I had a great time in this course.
- everything is fine
- There really isn't anything that I saw that I would critique. She is a very good teacher.
- Nothing

- everything
- always holds class til lend of period and tries for all students to stay of their phones during open discussion.

- I really liked the projects
- Group conversations when discussing it works very well
- she should continue to teach the way she is
- Engaging the class to participate in class activities
- I think the course is set up pretty nicely. I really like the film days in class.
- Project number 3. Loved how personal they were!
- The movies/ videos we watched.
- things the way that she does it now
- the same
- try to make the class more interesting I actually liked art but just not the history part about art
- Continue making us do homework after we watch a movie/video. It helps us better understand the message better.
- having the nice and happy spirit she have
- The same thing because simple is good and better to understand
- being energetic
- I think that this class was brilliant and very well done, it was extremely informative and hands on I think continue with the open talks and the assignments really helped students learn how to understand art
- They should continue doing all of what they are doing know as they do really well in teaching the class.

24. In the future, the instructor should start doing:

- no suggestions
- more in class activities besides watching videos.
- Perhaps more projects or a couple smaller ones interspersed
- I'm not sure
- nothing
- More practical homework
- I think she should keep everything the same
- N/A
- Having fewer slides and having more hands-on things. Make class more interesting
- I can't think of anything here.
- maybe more making projects/more variety with it
- the same
- keep doing what youve been doing
- I think they should start doing teaching different forms of art instead of the ones they teach everyone!
- nothing , she do great
- doing the same thing, nothing should changed learned a lot
- Being harsher with people that don't stop talking
- The instructor doesnt really need to start doing something else or implementing something new as the course is good.

25. In the future , the instructor should stop doing:

- no suggestions
- Nothing
- She shouldn't stop doing anything
- I feel as if she is doing her best so nothing
- Nothing!
- Nothing she does everything to help students succeed in her class.
- N/A
- Nothing :)
- is good
- keep doing what you've been doing
- Art projects. I know it's an art history class, but for people who like art history and not making art, it's very difficult and uncomfortable for us.
- nothing
- nothing, keep it the same and simple it's a good curriculum
- The instructor shouldnt stop doing anything.

23. In the future courses, the instructor should continue doing:

- 1. Continue encouraging students to succeed with her genuine enthusiasm. 2. Continue to provide feedback in a manner that motivates students. 3. Continue maintaining a positive disposition. 4. Continue being the type of person students can approach for help and advise.
- Being a great role model to students and being kind. Great demos, that helped me understand the content!
- All the fun printing parties
- I really like the exchange print that we are doing. I also really like the variety that we have in our projects. I also like that the mono print project is short and more messing around than anything.
- Encouraging students to get work done on time, yet also having flexible due dates and assignment requirements. It really creates a productive and positive environment.
- The projects to get familiar with each method to lead into the final projects
- Screen printing early in the semester, carving was still fun and interesting but people who had a harder time carving still had a go to method to use

24. In the future, the instructor should start doing:

- She should keep doing all the same stuff
- I think it would be fun to do a couple carving prints like we do with screen printing.
- More time to work with carving and less time for monoprints.
- Nothing Karen is perfect

25. In the future , the instructor should stop doing:

- Nothing she is doing good
- I really liked this class and can't think of anything that needs to be changed.
- I can't think of anything, I loved every project.
- Nothing Karen is perfect

23. In the future courses, the instructor should continue doing:

- Keep running the class like you because it has been one of the best classes that I have taken this year.
- the assignments she does
- karen is a great teacher, she is very helpful and make everyone feel comfortable, she helps every student and guides every single one in the right path, and give great advises. I just think that she should keep being the way she is because she is great.
- Helping the students
- Being a wonderful person.
- KEEP BEING A GOOD TEACHER
- Projects
- The video responses and projects---they were really fun
- Nothing Different
- Checking in with everyone
- a variety of projects with different goals and materials.
- everything she is great
- all that she does
- Her ideas and homework assignments are fun and applicable to the course. She connects everything we do with one another and is fun.
- I feel that she should keep doing things the way she been doing
- The everyday things she does. Making a little bond with each student.
- Making class with jokes and music etc.
- This course was my favorite! They should continue the body in place project. The journal seemed like a big task and I think that I have pushed myself to be more creative. Overall this teacher should continue to walk us through art in a life applicable way.
- Giving examples
- The same
- the same thing

- I really liked the monster self portrait, the perspective 10-15 minute assignments, and the 12 hour final.
- everything
- everything
- always holds class til lend of period and tries for all students to stay of their phones during open discussion.
- I really liked the projects
- Group conversations when discussing it works very well
- she should continue to teach the way she is
- Engaging the class to participate in class activities
- I think the course is set up pretty nicely. I really like the film days in class.
- Project number 3. Loved how personal they were!
- The movies/ videos we watched.
- things the way that she does it now
- the same
- try to make the class more interesting I actually liked art but just not the history part about art
- Continue making us do homework after we watch a movie/video. It helps us better understand the message better.
- having the nice and happy spirit she have
- The same thing because simple is good and better to understand
- being energetic
- I think that this class was brilliant and very well done, it was extremely informative and hands on I think continue with the open talks and the assignments really helped students learn how to understand art
- They should continue doing all of what they are doing know as they do really well in teaching the class.
- 1. Continue encouraging students to succeed with her genuine enthusiasm. 2. Continue to provide feedback in a manner that motivates students. 3. Continue maintaining a positive disposition. 4. Continue being the type of person students can approach for help and advise.
- Being a great role model to students and being kind. Great demos, that helped me understand the content!
- All the fun printing parties
- I really like the exchange print that we are doing. I also really like the variety that we have in our projects. I also like that the mono print project is short and more messing around than anything.
- Encouraging students to get work done on time, yet also having flexible due dates and assignment requirements. It really creates a productive and positive environment.
- The projects to get familiar with each method to lead into the final projects
- Screen printing early in the semester, carving was still fun and interesting but people who had a harder time carving still had a go to method to use
- Staying in a good mood creating a good environment

24. In the future, the instructor should start doing:

- Have more options for projects.
- let us have a little more creativity
- I don't know to be honest, because the instructor already uses multiple ways of teaching and everything she does is great.
- Try to give more time
- Nothing, she's great.
- Projects with other materials like water paint or just regular paint
- I can't think of anything new to add to the course, I really liked it.
- giving time in beinging of class to work on projects
- include more shorter projects and utilize some more materials.
- she doesnt have to change anything
- I think she is good at what she does
- More in class time for the projects that take longer. Something like 30 minutes everyday to work on our assignments.
- Art games with prizes
- Start critiquing us a bit more.
- everything is fine
- This teacher should start to make more rubrics and allow us to become better students. She should start doing more outside class activities overall. That way previous students who enjoy art but don't do it on a daily basis have the ability to be in that mindset.
- Give a little more empathy
- Nothing
- the same thing
- Maybe do something with colored pencil?
- nothing
- no suggestions
- more in class activities besides watching videos.
- Perhaps more projects or a couple smaller ones interspersed
- I'm not sure
- nothing
- More practical homework
- I think she should keep everything the same
- N/A
- Having fewer slides and having more hands-on things. Make class more interesting
- I can't think of anything here.
- maybe more making projects/more variety with it
- the same
- keep doing what youve been doing
- I think they should start doing teaching different forms of art instead of the ones they teach everyone!
- nothing , she do great
- doing the same thing, nothing should changed learned a lot
- Being harsher with people that don't stop talking
- The instructor doesnt really need to start doing something else or implementing something new as the course is good.
- She should keep doing all the same stuff
- I think it would be fun to do a couple carving prints like we do with screen printing.
- More time to work with carving and less time for monoprints.
- Nothing Karen is perfect
- Staying the same

25. In the future , the instructor should stop doing:

- There is nothing that you should stop doing.
- video responses
- nothing
- Stop letting kids have so much freedom
- Video Responses
- I also can't think of anything here.
- Photo editing
- she should keep doing everything she supposed to be doing
- nothing she does a great job
- Overall the instructor was amazing. She helped me with personal issues and was very professional about it. However, some students need to be treated differently with how they learn.

- Nothing she doing an wonderful job
- I don't know I had a great time in this course.
- everything is fine
- There really isn't anything that I saw that I would critique. She is a very good teacher.
- Nothing
- she should keep doing what she is doing
- I don't feel that anything needs to be stopped.
- nothing
- no suggestions
- Nothing
- She shouldn't stop doing anything
- I feel as if she is doing her best so nothing
- Nothing!
- Nothing she does everything to help students succeed in her class.
- N/A
- Nothing :)
- is good
- keep doing what you've been doing
- Art projects. I know it's an art history class, but for people who like art history and not making art, it's very difficult and uncomfortable for us.
- nothing
- nothing, keep it the same and simple it's a good curriculum
- The instructor shouldnt stop doing anything.
- Nothing she is doing good
- I really liked this class and can't think of anything that needs to be changed.
- I can't think of anything, I loved every project.
- Nothing Karen is perfect
- No response

23. In the future courses, the instructor should continue doing:

- I liked the copy/synth/morph project and think it would be a very fun project to keep doing. I also liked the taping assignment because I think it is an interesting method of drawing to experience.
- I enjoy the variety of assignments that were given.
- I think that they should continue to have several different projects throughout the semester that are different and require different materials and approach. It really helped me to get out of my comfort zone.
- The tape project! It was super fun!
- Morph assignment
- Everything she is doing
- The instructor should continue providing a variety of assignments and grading based on individual skill level.
- mini projects

- more in class time to work

24. In the future, the instructor should start doing:

- I do not have anything for this section.
- In class videos of artists creating, possibly even playing while we brainstorm to help us think of new ideas. (art 21 videos)
- Having more classes or assignments that require students to get out of the class workspace would be nice. In my case it got to where I didn't want to go to class sometimes primarily because I didn't want to sit in that room for an hour and 45 minutes.
- Should start doing more with oil pastels
- Everything is perfect in my opinion
- I believe the instructor could allow more time for projects.
- more team projects
- more small assignments

25. In the future, the instructor should stop doing:

- Some of the assignments required a lot of outside work, which was sometimes good but it also could be good to make the assignments shorter so students do not get bored or find them tedious and unenjoyable.
- Sometimes the amount of pre-project sketches is a lot to handle and then I do not fulfill the purpose of the assignment. Instead, I am just trying to get it done instead of create art.
- Didn't have any complaints.
- assignments that involve watching videos
- Class is perfect
- long videos
- huge massive assignments

23. In the future courses, the instructor should continue doing:

- do the games but make it more even for competition
- the role plays and the fun assignments
- Homework assignments
- The roleplaying is fun, engaging and is actually teaching me instead of just sitting and watching a slideshow every day. The slideshows you do are helpful and fun and I like learning about the different pieces and time periods. It's also helpful to do recaps of the lessons the next class because it helps the information stick in my brain. Continue open note exams.
- Everything! The class was fun as well as educational.
- Her lectures
- providing further materials on the brightspace to help with class content.
- Sharing their enthusiasm with the class to make the class enjoyable
- Making class fun
- I think that Karen should keep the class the exact same way. Karen was a great teacher and made my love for art grow. I am a history nerd and being able to learn about the history of art was something that I didn't think I was going to enjoy, but I actually ended up loving it. I also love how Karen uses icebreakers before class to get everyone involved. I think that this is a very clever idea because in this class we talk to one another a lot and this is a way to shake the nerves. I also think Karen should keep jamming out to music at the beginning of class. I enjoy this very much and it makes me feel like the classroom is a safe place where we are able to express ourselves!
- Putting QR codes to let us see the artworks up close
- Having energy in class. Doing 2 projects that apply to the course.
- Games

24. In the future, the instructor should start doing:

- group work
- more hands on assignments
- More assignments they were fun to work with
- Better explanations and study guide for exams
- Explaining how their grades are weighted a bit better
- Shortened midterm with a study or make it more clear as to what will be on it.
- I think that we need a review say for the midterm and for the final if they re set up the same way. The midterm was nothing like I has expected and it defiantly threw me off guard. I felt as if I wasn't prepared even though I was able to print off notes. I think that I felt rushed and was constantly repeating myself when it came to the artwork because my mind was in a million different places trying to read my notes and then write thing son the midterm. Other than that everything was good, and I really enjoyed this class.
- Nothing new
- Assigning us assignments that will have us present in front of the class, information of the course.
- More checking in the games so people don't do things unfairly

25. In the future , the instructor should stop doing:

- all good
- I think everything what is assigned in class is fine.
- I feel like the class had to much focus on the role playing maybe little bit less of that matter
- roleplaying
- Nothing, I loved having Karen as a professor!
- nothing comes to mind
- NOTHING! Karen is a great teacher and I love the way that she involves everyone and is always willing to help when we need it!
- Both of the role play games
- Should stop doing one big project from the course.
- Nothing, class was awesome

23. In the future courses, the instructor should continue doing:

- I liked the copy/synth/morph project and think it would be a very fun project to keep doing. I also liked the taping assignment because I think it is an interesting method of drawing to experience.
- I enjoy the variety of assignments that were given.
- I think that they should continue to have several different projects throughout the semester that are different and require different materials and approach. It really helped me to get out of my comfort zone.
- The tape project! It was super fun!
- Morph assignment
- Everything she is doing
- The instructor should continue providing a variety of assignments and grading based on individual skill level.
- mini projects
- more in class time to work
- do the games but make it more even for competition
- the role plays and the fun assignments
- Homework assignments
- The roleplaying is fun, engaging and is actually teaching me instead of just sitting and watching a slideshow every day. The slideshows you do are helpful and fun and I like learning about the different pieces and time periods. It's also helpful to do recaps of the lessons the next class because it helps the information stick in my brain. Continue open note exams.
- Everything! The class was fun as well as educational.
- Her lectures
- providing further materials on the brightspace to help with class content.
- Sharing their enthusiasm with the class to make the class enjoyable
- Making class fun
- I think that Karen should keep the class the exact same way. Karen was a great teacher and made my love for art grow. I am a history nerd and being able to learn about the history of art was something that I didn't think I was going to enjoy, but I actually ended up loving it. I also love how Karen uses icebreakers before class to get everyone involved. I think that this is a very clever idea because in this class we talk to one another a lot and this is a way to shake the nerves. I also think Karen should keep jamming out to music at the beginning of class. I enjoy this very much and it makes me feel like the classroom is a safe place where we are able to express ourselves!
- Putting QR codes to let us see the artworks up close
- Having energy in class. Doing 2 projects that apply to the course.
- Games
- Discussions and fun group activities and movies that relate to the class
- movies in carol hall
- to be herself and to continue being a fun positive ball of energy. she encourages students to participate and have fun learning the material and she gives everything she got into the course.
- What she does she's a great teacher
- going over all different types of art, not just stuff in galleries
- Being herself, and keeping confidence within the course I love her class.
- none
- Films
- Having all the assignments
- Being SO POSITIVE !!
- Being herself and building relationships with her students.
- Readings
- She should keep doing the art videos in Carol Hall
- nothing really
- Art critiques with group are helpful
- Critiques with peers. I love hearing the opinions of others about my work.
- Continue encouraging her students to create more work and pushing their limits.

24. In the future, the instructor should start doing:

- I do not have anything for this section.
- In class videos of artists creating, possibly even playing while we brainstorm to help us think of new ideas. (art 21 videos)
- Having more classes or assignments that require students to get out of the class workspace would be nice. In my case it got to where I didn't want to go to class sometimes primarily because I didn't want to sit in that room for an hour and 45 minutes.
- Should start doing more with oil pastels
- Everything is perfect in my opinion
- I believe the instructor could allow more time for projects.
- more team projects
- more small assignments
- group work
- more hands on assignments
- More assignments they were fun to work with
- Better explanations and study guide for exams
- Explaining how their grades are weighted a bit better
- Shortened midterm with a study or make it more clear as to what will be on it.
- I think that we need a review say for the midterm and for the final if they re set up the same way. The midterm was nothing like I has expected and it defiantly threw me off guard. I felt as if I wasn't prepared even though I was able to print off notes. I think that I felt rushed and was constantly repeating myself when it came to the artwork because my mind was in a million different places trying to read my notes and then write thing son the midterm. Other than that everything was good, and I really enjoyed this class.
- Nothing new

- Assigning us assignments that will have us present in front of the class, information of the course.
- More checking in the games so people don't do things unfairly
- not so many assignments
- help zoom calls or student hours.
- Nothing that I can think of she is great at her job
- nothing
- Great class
- none
- More hands on art projects
- I don't know what can make the class better
- She did great !
- Nothing much different she was my favorite teacher and helped me tremendously.
- Less assignments
- Maybe some art presentation
- talking to your student
- Would be great if we could visit art galleries
- More Artist talks. Visiting artist can either zoom or come to the class in person.
- N/A. Gergely is a great art teacher who's changed my approach to creating art.

25. In the future , the instructor should stop doing:

- Some of the assignments required a lot of outside work, which was sometimes good but it also could be good to make the assignments shorter so students do not get bored or find them tedious and unenjoyable.
- Sometimes the amount of pre-project sketches is a lot to handle and then I do not fulfill the purpose of the assignment. Instead, I am just trying to get it done instead of create art.
- Didn't have any complaints.
- assignments that involve watching videos
- Class is perfect
- long videos
- huge massive assignments
- all good
- I think everything what is assigned in class is fine.
- I feel like the class had to much focus on the role playing maybe little bit less of that matter
- roleplaying
- Nothing, I loved having Karen as a professor!
- nothing comes to mind
- NOTHING! Karen is a great teacher and I love the way that she involves everyone and is always willing to help when we need it!
- Both of the role play games
- Should stop doing one big project from the course.
- Nothing, class was awesome
- skits
- I have no clue.
- Nothings she is a great teacher
- nothing, it is a great class
- none
- Repetative questions on assignments
- giving that much lectures for class
- I enjoyed the class
- Nothing she's great.
- Lots of videos
- Nothing
- nothing
- Nothing comes to mind

23. In the future courses, the instructor should continue doing:

- Karen is very open and accepting of her students. She knows that we have other things going on in our lives and gives us proper time to turn in assignments. She also allowed us to come to her 2:00 pm class if we missed the 8:00 am period.
- keep students engaged.
- Keep being positive and such a nice teacher always so supportive and kind. This lady is the sweetest professor I've had since I arrived at Graceland.
- Being who they are
- What she has been doing in every area
- I think the course was fine just how it was, it was a great class and i enjoyed it very much
- positivity

24. In the future, the instructor should start doing:

- I can't think of anything.
- Nothing this professor handled the class the best way I could think of.
- Maybe showing more videos/movies, we watched one movie on Gregory Krudson and I really enjoyed that.
- In the future, the instructor should maybe add a few new artist videos because I think some of them were uninteresting and overall plain.
- its good

25. In the future , the instructor should stop doing:

- There were one or two projects that I didn't particularly enjoy, but that doesn't mean that she needs to stop doing them.
- Nothing this professor handled the class the best way I could think of.
- I don't have anything to say.
- she great

23. In the future courses, the instructor should continue doing:

- The videos on artists and subsequent discussions.
- I think the instructor should continue doing the weekly videos, it really helped in learning about all the different artist there are. I think keeping the questions about how/when do you feel that an piece is complete and how do you know that.
- everything is pretty good
- the same style of teaching. The way that things are done was very beneficial

24. In the future, the instructor should start doing:

23. In the future courses, the instructor should continue doing:

- I like what she is doing
- The masterpiece or masterwork assignment.
- The projects were fun and I learned a lot.
- I think this instructor should continue being active with students and always making sure people understand what is going on and helping them when she just wants to join in.
- a good job
- Hands on projects such as the window taping and the one / two dimensional drawings because I think it helps students to learn about drawing from a different perspective than what the average person would draw or think of in an artistic point of view.
- Every thing I loved the class and the feedback I got on my projects
- keeping the system the exact same

- More small sketchbook assignments.
- I cannot think of anything that she should start doing.

- I think this instructor should maybe make one project or assignment at the beginning of the year that is something that they want to draw so over the time period you can assign something that everyone likes and help them get better at what they prefer.
- start doing more projects outside of class
- even more collaborative / hands on projects in order to get students involved with their learning
- nothing different

25. In the future , the instructor should stop doing:

- nothing I like everything
- Nothing, Karen is perfect.
- She has been wonderful, she helps me get through my next class.
- I don't think this instructor should stop doing anything.
- nothing in particular

23. In the future courses, the instructor should continue doing:

- Exploring ideas
- Everything she is doing now
- Keeping the class engaged and asking questions.
- Providing a positive environment
- Keeping student engage.
- In the future courses, the instructor should continue to give the project assignments.
- Doing everything she has been doing
- a variety of projects and assignments, like art projects and papers. also keep being so passionate and energetic!
- the three main projects. I think they were spaced good and were all about good topics.
- Music at beginning of class. Group work and also Projects. Then having us all go around to listen to each person eventually interacting.
- In class discussions

- keeping the positive energy and encouraging students to pay attention and complete assignments.
- Nothing
- being energetic with her material
- Continue being positive and charismatic because it helps students to be more active
- Personal History Project
- Staying positive and helping students achieve their greatest potential.
- them
- Projects and assignments.
- Keeping the class engaged.
- Film days so we can see the art

24. In the future, the instructor should start doing:

- Look at things look at both sides explore more
- None
- Different types of assignments, I feel like we do a lot of the same assignments just different movies or things.
- Nothing.
- In the future, the instructor should start giving more project assignments and not that many busy work assignments and do more group assignments
- Less push to one political party over the other
- maybe one or two more art projects, they were really fun to do!
- more videos. I thought they were interesting and informing
- Check ins. Making sure everyone is on the same page when it comes to assignments. Clarity being enforced a little better.
- More work time in class
- when assigning projects that require a lot of instructions you could do a better job of explaining it on paper. you do a great job when we ask questions but if you explained it like how you do in class, it would be much more helpful and easier to understand(use less complex words and just explain it maybe).
- Nothing
- allow late work
- I don't really know because everything she's doing now is great
- Talking more about how the art applies to our every day lives and why it's relevant to us.
- helping more
- More hands-on demonstrations or games that apply with our learning.
- I do not think the instructor should start doing anything.
- More group related projects

25. In the future , the instructor should stop doing:

- None
- Nothing, as much as I didn't want to answer questions sometimes it kept me engaged.
- Nothing.
- In the future, the instructor should stop giving us assignments attached to videos.
- One side stories of these political events
- calling on people randomly. It gave me anxiety.
- So many projects and assignments
- nothing i can think of.
- Nothing
- Not Applicable
- Nothing
- Assigning movie-watch assignments.
- I do not think the instructor should stop doing anything.

23. In the future courses, the instructor should continue doing:

- Being available and approachable. Showing encouragement. Being prepared. Positive. Cheerful and effervescent. Caring.
- Being such an amazing professor! She also creates such a great space to work in, there are boundaries but we are still free to learn to become artists and have fun while learning. I love listening to music and us getting the freedom to chat with one another as we work. I was also struggling mentally and this was affecting my work but she kept pushing me and encouraging me and I ultimately ended up doing much better. She never gave up or got frustrated with me. She worked with me one on one when I really needed that extra help and helped me succeed. I can't thank her enough.
- Bringing positivity into the classroom and encouraging student creativity.
- Everything this class was amazing
- I liked this class as a whole, and felt that what she is already doing is very effective.
- Everything she already does
- assignments to expand our creativity. presentations for what we've printed and created. Allow students to take their own path in creating their art.
- Making the student's present their works and their methods for getting to a specific work of art.
- The orojects she's doing
- the same
- Print Exchange
- Everything is good

24. In the future, the instructor should start doing:

- More chili parties, that was awesome.
- Nothing I can think of at this moment.
- Keep being amazing
- Maybe have some slight clarification for procedures. Some projects need to be completed in a specific order and it is sometimes hard to remember the order.
- Have this class earlier in the day
- Grade builders
- nothing new
- Three color prints
- I'm not sure because I don't have any suggestions.

25. In the future , the instructor should stop doing:

- Nothing I can think of at this moment.
- Nothing
- nothing, I liked printmaking
- All is good. I don't have any problems

23. In the future courses, the instructor should continue doing:

- Karen is very open and accepting of her students. She knows that we have other things going on in our lives and gives us proper time to turn in assignments. She also allowed us to come to her 2:00 pm class if we missed the 8:00 am period.
- Keep students engaged.
- Keep being positive and such a nice teacher always so supportive and kind. This lady is the sweetest professor I've had since I arrived at Graceland.
- Being who they are
- What she has been doing in every area
- I think the course was fine just how it was, it was a great class and i enjoyed it very much
- positivity
- The videos on artists and subsequent discussions.
- I think the instructor should continue doing the weekly videos, it really helped in learning about all the different artist there are. I think keeping the questions about how/when do you feel that an piece is complete and how do you know that.
- everything is pretty good
- the same style of teaching. The way that things are done was very beneficial
- I like what she is doing
- The masterpiece or masterwork assignment.
- The projects were fun and I learned a lot.
- I think this instructor should continue being active with students and always making sure people understand what is going on and helping them when she just wants to join in.
- a good job
- Hands on projects such as the window taping and the one / two dimensional drawings because I think it helps students to learn about drawing from a different perspective than what the average person would draw or think of in an artistic point of view.
- Every thing I loved the class and the feedback I got on my projects
- keeping the system the exact same
- Exploring ideas
- Everything she is doing now
- Keeping the class engaged and asking questions.
- Providing a positive environment
- Keeping student engage.
- In the future courses, the instructor should continue to give the project assignments.
- Doing everything she has been doing
- a variety of projects and assignments, like art projects and papers. also keep being so passionate and energetic!
- the three main projects. I think they were spaced good and were all about good topics.
- Music at beginning of class. Group work and also Projects. Then having us all go around to listen to each person eventually interacting.
- In class discussions
- keeping the positive energy and encouraging students to pay attention and complete assignments.
- Nothing
- being energetic with her material
- Continue being positive and charismatic because it helps students to be more active
- Personal History Project
- Staying positive and helping students achieve their greatest potential.
- them
- Projects and assignments.
- Keeping the class engaged.
- Film days so we can see the art
- Being available and approachable. Showing encouragement. Being prepared. Positive. Cheerful and effervescent. Caring.
- Being such an amazing professor! She also creates such a great space to work in, there are boundaries but we are still free to learn to become artists and have fun while learning. I love listening to music and us getting the freedom to chat with one another as we work. I was also struggling mentally and this was affecting my work but she kept pushing me and encouraging me and I ultimately ended up doing much better. She never gave up or got frustrated with me. She worked with me one on one when I really needed that extra help and helped me succeed. I can't thank her enough.
- Bringing positivity into the classroom and encouraging student creativity.
- Everything this class was amazing
- I liked this class as a whole, and felt that what she is already doing is very effective.
- Everything she already does
- assignments to expand our creativity. presentations for what we've printed and created. Allow students to take their own path in creating their art.
- Making the student's present their works and their methods for getting to a specific work of art.
- The orojects she's doing
- the same
- Print Exchange
- Everything is good

24. In the future, the instructor should start doing:

- I can't think of anything.
- Nothing this professor handled the class the best way I could think of.
- Maybe showing more videos/movies, we watched one movie on Gregory Krudson and I really enjoyed that.
- In the future, the instructor should maybe add a few new artist videos because I think some of them were uninteresting and overall plain.
- its good
- More of the art assignment prompts like the one-minute sculpture.
- There is nothing I can think of that I think should be added.
- She's doing everything right

- nothing different
- nothing I like everything
- More small sketchbook assignments.
- I cannot think of anything that she should start doing.
- I think this instructor should maybe make one project or assignment at the beginning of the year that is something that they want to draw so over the time period you can assign something that everyone likes and help them get better at what they prefer.
- start doing more projects outside of class
- even more collaborative / hands on projects in order to get students involved with their learning
- nothing different
- Look at things look at both sides explore more
- None
- Different types of assignments, I feel like we do a lot of the same assignments just different movies or things.
- Nothing.
- In the future, the instructor should start giving more project assignments and not that many busy work assignments and do more group assignments
- Less push to one political party over the other
- maybe one or two more art projects, they were really fun to do!
- more videos. I thought they were interesting and informing
- Check ins. Making sure everyone is on the same page when it comes to assignments. Clarity being enforced a little better.
- More work time in class
- when assigning projects that require a lot of instructions you could do a better job of explaining it on paper. you do a great job when we ask questions but if you explained it like how you do in class, it would be much more helpful and easier to understand(use less complex words and just explain it maybe).
- Nothing
- allow late work
- I don't really know because everything she's doing now is great
- Talking more about how the art applies to our every day lives and why it's relevant to us.
- helping more
- More hands-on demonstrations or games that apply with our learning.
- I do not think the instructor should start doing anything.
- More group related projects
- More chili parties, that was awesome.
- Nothing I can think of at this moment.
- Keep being amazing
- Maybe have some slight clarification for procedures. Some projects need to be completed in a specific order and it is sometimes hard to remember the order.
- Have this class earlier in the day
- Grade builders
- nothing new
- Three color prints
- I'm not sure because I don't have any suggestions.

25. In the future , the instructor should stop doing:

- There were one or two projects that I didn't particularly enjoy, but that doesn't mean that she needs to stop doing them.
- Nothing this professor handled the class the best way I could think of.
- I don't have anything to say.
- she great
- Nothing, Karen is perfect.
- There is nothing I can think of that I think should be stopped.
- She should keep doing what she is doing
- I wouldn't say to change anything about the way this course is taught
- nothing I like everything
- Nothing, Karen is perfect.
- She has been wonderful, she helps me get through my next class.
- I don't think this instructor should stop doing anything.
- nothing in particular
- None
- Nothing, as much as I didn't want to answer questions sometimes it kept me engaged.
- Nothing.
- In the future, the instructor should stop giving us assignments attached to videos.
- One side stories of these political events
- calling on people randomly. It gave me anxiety.
- So many projects and assignments
- nothing i can think of.
- Nothing
- Not Applicable
- Nothing
- Assigning movie-watch assignments.
- I do not think the instructor should stop doing anything.
- Nothing I can think of at this moment.
- Nothing
- nothing, I liked printmaking
- All is good. I don't have any problems

23. In the future courses, the instructor should continue doing:

- what they have been doing. They are a great teacher for early mornings.
- Karen should continue doing having group discussions and letting ideas be shared freely.
- Bringing so good energy to the class
- All that she's been doing. I have no problems with my instructor. I really enjoy her lessons.
- helpful in-class discussions
- what she's doing
- The videos, and peer evaluations
- Providing a wide variety of material and topics to bounce off of when completing projects. As well as showing us different artists and methods to help with motivation.

- Fun projects.

24. In the future, the instructor should start doing:

- nothing that changes what she is currently doing.
- The instructor should assign more art projects.
- Doing more projects in class
- I have nothing much to say besides you're an awesome teacher.
- I don't think there's anything to change
- less video responses
- what she's doing
- I don't think there's any additional material needed
- However broad the idea or subject, I want the instructor to be a little more critical of artwork. That kind of feedback helps a lot.
- Should allow class time to do assignments.

25. In the future , the instructor should stop doing:

- nothing she is a good teacher.
- The instructor should assign less video reviews.
- Doing less work out of the class
- I have nothing to say here.
- I don't think there's anything to change
- the video response is too much
- Nothing
- Nothing, they're fine as is.
- The class is too long it makes the class boring.

23. In the future courses, the instructor should continue doing:

- "Share with a neighbor" Films Kahoots
- being there for her students
- Being supportive of other students
- Nothing to add here
- She should continue showing videos in class.
- they should continue to keep everyone engaged in the class. Keep the classroom in a good and positive environment. She always encourages all the students to do their best and tries to get everyone to participate. it is a very safe place and I don't feel nervous talking in the class as I normally do in other classes. she made everyone feel like they belonged in our class space. I would say continue calling the class your team because I love when she calls us that because it makes me feel like we are a safe group.

24. In the future, the instructor should start doing:

- Everything was good
- unsure
- Nothing to add here
- She shouldn't start doing anything differently.
- maybe mix up the class a little more. I feel like I don't know too many people in this class and I would have liked to talk and get in groups with other students more. we did do this multiple times but I wish we did it a little more.

25. In the future , the instructor should stop doing:

- Everything was good
- unsure
- Nothing to add here
- She should stop doing Engagement Reviews.
- there is nothing that I can think of the I would want the instructor to stop doing. I think she did an amazing job and I loved being in her class.

23. In the future courses, the instructor should continue doing:

- what they have been doing. They are a great teacher for early mornings.
- Karen should continue doing having group discussions and letting ideas be shared freely.
- Bringing so good energy to the class
- All that she's been doing. I have no problems with my instructor. I really enjoy her lessons.
- helpful in-class discussions
- what she's doing
- The videos, and peer evaluations
- Providing a wide variety of material and topics to bounce off of when completing projects. As well as showing us different artists and methods to help with motivation.
- Fun projects.
- I Like the videos that we watched out of class, and the variability in the mediums that we used in class.
- continue doing the projects because I like them
- what she is doing.
- Multiple kinds of assignments with different medias
- Nothing
- Instilling information through writing assignments instead of tests or quizzes.
- Very engaging lessons and class discussions.
- Posting online links for studying and learning course materials. The class discussions are very helpful.
- A varieties of different visual activities/ways of teaching rather than lectures. Engaging students in class discussions or talking in groups.
- Being positive and encouraging, employ examples to better understand the project, open to hands on teaching, interact with students at their level of accomplishments
- She gives excellent instruction in techniques and is very supportive in helping us figure out what we want to create.
- Everything was great! She was encouraging and helpful with the production of our shows!

24. In the future, the instructor should start doing:

- nothing that changes what she is currently doing.
- The instructor should assign more art projects.
- Doing more projects in class
- I have nothing much to say besides you're an awesome teacher.
- I don't think there's anything to change
- less video responses

- what she's doing
- I don't think there's any additional material needed
- However broad the idea or subject, I want the instructor to be a little more critical of artwork. That kind of feedback helps a lot.
- Should allow class time to do assignments.
- idk I really have enjoyed this class.
- maybe less video responses
- more completed projects to display.
- Having more organized materials to use, making it easy to find something to work with.
- Nothing
- I don't know, maybe refreshers on things that we learned earlier in the class
- I would like more assignments out of the optional textbook.
- N/A, everything is perfect!
- I have no suggestions - the class is great.

25. In the future , the instructor should stop doing:

- nothing she is a good teacher.
- The instructor should assign less video reviews.
- Doing less work out of the class
- I have nothing to say here.
- I don't think there's anything to change
- the video response is too much
- Nothing
- Nothing, they're fine as is.
- The class is too long it makes the class boring.
- IDK This has been one of my favorite classes I have take at GU
- new video responses every class.
- I did not enjoy the projects where I took pictures so less projects like that.
- Nothing
- Nothing, she's doing great!
- Nothing comes to mind. The class is well designed.
- No complaints.

23. In the future courses, the instructor should continue doing:

- "Share with a neighbor" Films Kahoots
- being there for her students
- Being supportive of other students
- Nothing to add here
- She should continue showing videos in class.

- they should continue to keep everyone engaged in the class. Keep the classroom in a good and positive environment. She always encourages all the students to do their best and tries to get everyone to participate. it is a very safe place and I don't feel nervous talking in the class as I normally do in other classes. she made everyone feel like they belonged in our class space. I would say continue calling the class your team because I love when she calls us that because it makes me feel like we are a safe group.

24. In the future, the instructor should start doing:

- Everything was good
- unsure
- Nothing to add here
- She shouldn't start doing anything differently.
- maybe mix up the class a little more. I feel like I don't know too many people in this class and I would have liked to talk and get in groups with other students more. we did do this multiple times but I wish we did it a little more.

25. In the future , the instructor should stop doing:

- Everything was good
- unsure
- Nothing to add here
- She should stop doing Engagement Reviews.
- there is nothing that I can think of the I would want the instructor to stop doing. I think she did an amazing job and I loved being in her class.
